

This letter is a follow up to the news report which aired on 11/11/2010. from Fairbanks observer during the vote reporting that they believe they witnessed voter fraud. I too saw what I think is voter fraud occurring. I fully intend to follow this letter up to you with a letter to the division of elections. Here is what I saw on election day at 7:00 am at sand lake elementary school. I was the 6th or 7th voter waiting in line from 6:45 am until the booth opened at 7:00 am. I received my ballot and voted as usual. When I walked out of the voting booth approximately the 10th voter, I was shocked to see three or 4 voters in front of me watching a poll worker who had the ballot box opened. It was opened on the left side and the voters in front of me were stuffing their ballots into the box. Keep in mind I was no more than number 10 as a voter. When I got to put my ballot into the box I did note that there was already a stack of ballots in the box which in my opinion numbered in the hundreds. They were very neatly stacked and approximately 4 to 5 inches thick. Now that there is reason for scrutiny I have brought this to the attention of channel two news. anyone who voted at sand lake elementary school within the first 10 minutes I was there saw this. My exact comment as I left the polls was to say. Oh already stuffing the ballot box huh. I then left. After tonight's broadcast I am not going to sit by and watch our elections be fixed as they are being done right now. you may contact me if you wish. Very sincerely concerned voter.
